

Heavy Duty Industrial Multimeter

- Rugged and reliable with IP67 waterproofing
- 4000 count LCD display
- True RMS
- AC/DC voltage measurements to 1000V
- AC/DC current measurements to 10A
- Resistance measurements to 40MΩ
- Capacitance testing to 100μF
- Frequency (electrical) testing from 5Hz to 1kHz
- Frequency (electronic) testing from 0.001Hz to 10MHz
- Duty cycle from 0.1 to 99.9%
- Temperature testing from -4 to 1382°F (-20 to 750°C)
- Continuity/diode testing
- 1000V input protection on all functions
- Data hold and relative hold
- Double-moulded, ultra-tough housing
- Drop-proof to a height of 6 feet (2.9m)

What's Included?

- Heavy Duty Industrial Multimeter
- Double Molded Test Leads
- Magnetic Hanging Strap
- Type K Bead Wire Temperature Probes
- Carrying Case
- 9V Battery
