Rubber Insulating Electrical Safety Matting

- Tested to 5kV for up to 1000V maximum working
- Class 0
- Flame Retardant/Oil & Acid Resistant

Rubber

- Upperside fine ribbed/underside fabric impression
- Tensile Strength: 6Mpa
- Hardness: 65 Shore A
- Elongation: Not less than 400%
- Mechanical Puncture Resistant: Not less than 70N

Certified to IEC61111

- Dark Grey, high grade rubber based electrical switchboard matting.
- Standard lengths, 1m & 1m
